## Safety Spotlight

### **BACK TO SCHOOL AND TIME TO DECORATE OUR CLASSES: DECORATE SAFELY & SENSIBLY!**

- Always use a heavy stepladder to reach heights. NEVER use a chair or stand on a table or desk.
- NEVER obscure doors with decorations or mirrors.
- REFRAIN from covering an excessive amount of the wall spaces. The permissible amount shall not exceed 10% of the specific wall or ceiling for which it is attached (NFPA 701).
- MAKE SURE any fabric, roll paper or construction paper you use is certified as Flame Retardant. It should possess a statement on the box.
- DO NOT cover or hide important utility or emergency features such as switches, electrical outlets, electrical panels, utility shutoffs, fire alarms, fire extinguishers, or other important equipment, etc. Make sure paper is trimmed completely away from these items.
- AVOID hanging items from the ceiling or lights because it helps to spread fire and cause false alarms with security systems. NEVER let anything hang from the ceiling below seven feet high.
- Keep hallways and aisles clear of clutter. Refrain from storing materials in these areas.

### **PROTECT YOURSELF, PROTECT YOUR PROPERTY: COMPLY WITH LAWS!**

*Applicable Standards: CCR, Title 19 Section 3.08 ▪ CCR, Title 19 Section 3.14 ▪ CCR Title 24, Part 9 Section 807.1.2*
