

Permission Click!

Digital Permission Forms

As provided for in California Education Code Section 35330, all persons making a field trip or excursion shall be deemed to have waived all claims against the District for injury, accident, illness, or death occurring during or by reason of the field trip or excursion. Most school districts comply with this requirement by providing permission and assumption of risk forms to parents to complete and return to teachers. Given the number of activities that occur during each school year, the processing of permission forms can be an administrative burden. Moreover, districts expose themselves to liability when forms are not collected or cannot be retrieved when necessary.

ASCIP has partnered with Permission Click to enable members to securely collect, store and retrieve digital parental permission forms for district sponsored events. Districts can pre-load permission and assumption of risk forms into the system and use the system to collect parent signatures, track, and store the forms. ASCIP members will have access to the 'ASCIP Edition' at no cost. Additional features and functionality are available at an additional cost. The feature in the 'ASCIP Edition' includes:

- Unlimited users, forms, & responses
- Full featured form builder
- Form reporting and response dashboard
- 24/7 access to knowledge base
- In-app chat support

In order to access Permission Click, each participating member must designate one senior staff member as the contact for the program and complete a License Agreement with Permission Click. Please indicate the designated contact for your district below and return the form your designated Senior Risk Services Consultant.
