

## ASCIP Vision Service Plan (VSP) Offerings

Member Districts can choose to offer any of the vision plans shown below with either the VSP Signature or Choice Networks. The Choice Plan is designed to reduce vision plan premiums by using a focused network (93% the size of the Signature network), and by reducing discounts on vision “extras” like high index and polarized lenses, tints, additional pairs of glasses, etc.

	Plan A	Plan B	Plan C
Covered vision care services received from in-network providers are paid as shown below. Covered vision care services received from out-of-network providers are paid at the same frequency as shown below, but with lower benefit maximums.
