

Why Bother with ASCIP-B?

Booster clubs and auxiliary groups are the “backbone” for sustaining education and extracurricular programs in schools. Without their financial support, many programs could not exist. While booster clubs are separate organizations from school districts, their affiliation may infer liability for the member entities. Therefore, it is essential that Booster clubs carry liability insurance for their activities.

ASCIP offers an optional group purchase insurance program, which provides \$1 million in liability coverage for all of a member’s booster clubs and auxiliary groups. The ASCIP-B policy is separate from the member’s coverage and offers protection to these groups. With ASCIP-B, booster club officers and volunteers will not be personally responsible for providing liability protection through their homeowner's insurance or other sources. The coverage protects for the entire program year, eliminating the need to arrange coverage for each event and providing separate certificates of insurance (COI).

The premium to cover all of a member’s booster clubs is much cheaper than for each club to purchase its own policy. Plus, members who secure ASCIP-B assure that adequate coverage is in place when events take place, simplify the process and hassle of collecting a COI from each group, and members are automatically named additionally insured. The coverage is affordable, a time-saver and provides peace of mind.

To enroll in ASCIP-B simply complete and return the [Booster Club Roster Form](#) for each auxiliary groups you want covered, then pay the ASCIP-B premium on your invoice this summer. Contact ASCIP Risk Services staff for more information regarding the ASCIP-B coverage.
